## **What do I do if a course that is REQUIRED for my degree is full and I need to take it this semester?**

Required courses refer to your current program of study. If you intend to transfer to another program in the future, or if you are shadowing a degree, we will only consider you to be in the new program once you have submitted the transfer paperwork. Please forward documentation to this effect to [shelder@uoguelph.ca](mailto:shelder@uoguelph.ca).

Most required courses are offered every Fall and Winter, and there will be another opportunity to take it in the next semester. A course is only considered to be required this semester if NOT taking it would delay your progress towards graduation.

Psychology students can check their degree requirements [here](#). If the course is listed as a program requirement for THIS semester, contact the Academic Advisor and Manager Sharon Helder at [shelder@uoguelph.ca](mailto:shelder@uoguelph.ca) to request consideration for a waiver. Note that it may not be possible to grant your request.
