

PSYC*6690, Course Outline: Fall 2024

General Information

DUE to the ongoing COVID-19 pandemic some courses are being offered virtually and some face to face. **This course is offered using the Face-to-Face format. The course has set day, time, and location of class.**

Course Title: Cognitive Assessment of Children and Adolescents

Course Description:

This course will provide learners with a foundational introduction to psychological assessment in children and adolescents with a focus on cognitive assessment. The course includes consideration of standards, ethics, uses, and interpretations of selected intelligence and cognitive measures with consideration for diverse populations and individual difference factors. Learners will consider ethical considerations in the application of psychological assessment and use of psychometric measures in cognitive assessment, the history and theory of intelligence testing in psychology, scoring and interpreting standardized cognitive measures, and understanding psychometric principles behind test development and the properties of various cognitive assessment measures. The purpose of this course is to introduce students to the foundations of psychological assessment with a focus on cognition, to teach the skills of individual cognitive assessment of children and adolescents, and, to develop professional skills related to the practice of psychology individually and in teams. Learners are encouraged to think critically through all topics, assignments, and materials, and to begin developing professional skills and competencies required for practice as a clinical psychologist.

Credit Weight: 0.5

Academic Department (or campus): Psychology (University of Guelph, Main Campus)

Semester Offering: Fall 2024

Class Schedule and Location: Fridays: 10:00am – 1:00pm

Instructor Information

Instructor Name: Julia McArthur, Ph.D., C. Psych.

Instructor Email: juliam@uoguelph.ca

Office location and office hours: By appointment

GTA Information

GTA Name: Chelsea Reaume
GTA Email: creaume@uoguelph.ca

GTA Name: Emilie Arbour
GTA Email: arboure@uoguelph.ca

GTA office location and office hours: In-person or Virtual, via Zoom or MS Teams, as needed.

Course Content

Specific Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. Demonstrate knowledge of psychological assessment with a focus on cognitive and intelligence testing in children and adolescents.
2. Delineate major theoretical perspectives and history of cognitive and intellectual assessment in psychology.
3. Apply knowledge of equity and diversity-related issues relevant from both historical and contemporary practice perspectives in psychological assessment with a focus on cognitive/intellectual assessment.
4. Apply knowledge of ethical principles and professional practice standards related to psychological assessment in case problems and practical skill development.
5. Identify and delineate psychometric considerations relevant to the development, standardization, and selection of psychological measures with a focus on cognition and intelligence in children and adolescents.
6. Demonstrate knowledge and skills in administration of the Wechsler Intelligence Scale for Children-Fifth Edition (WISC-V), accurate scoring of the WISC-V, and developing skill in interpreting findings from the WISC-V.
7. Write a mock psychological assessment report synthesizing presenting concerns/case history; behavioural observations; test interpretation (WISC-V), case conceptualization, and recommendations.
8. Present feedback regarding overall cognitive functioning based on a mock psychological assessment in a child and/or adolescent.
9. Synthesize knowledge of psychological measurement and cognitive assessment through a test review presentation, demonstrating knowledge of the nature and purpose of the tool, psychometric properties, intended populations for administration, strengths and limitations of the measure, and practical selection and administration issues (e.g., cost, time, format, etc.).
10. Demonstrate skills in professionalism relevant to the practice of clinical psychology, through the completion of assigned group problems and all interactions with fellow learners, teaching assistants, course instructor, and Maplewoods staff and faculty, including communication, collaboration, punctuality, participation, critical thinking, problem-solving, proactive conflict resolution, and communication.

CCAP Competency & Facets	Level	Specific Learning Outcomes
<p>Professionalism & Interpersonal Relationships</p> <ol style="list-style-type: none"> 1. Demonstrates knowledge of others, including the macro- (e.g., work, national norms, etc.) and micro-environments (e.g., personal differences, family, culture, gender differences, etc.) in which people function. 2. Engages in a professional level and style of conduct and deportment (e.g., organization, timeliness, dress and hygiene, practicing within one’s competence). 3. Establishes and maintains trust and respect in the professional relationship (e.g., follows-through on commitments, proactively seeks out supervision when necessary). 4. Establishes and maintains professional relationships with clients from all populations served and appropriate interdisciplinary relationships with colleagues and learners. 5. Engages in reflective practice and adjusts personal approach, as needed, in professional contexts (e.g., self-care, communicating with colleagues, seeking supervision or feedback). 	<p>Basic</p> <p>Basic</p> <p>Basic</p> <p>Basic</p> <p>Basic</p>	<p>3, 4, 5, 7, 9</p> <p>10</p> <p>4, 10</p> <p>3, 10</p> <p>3, 10</p>
<p>Assessment & Evaluation</p> <ol style="list-style-type: none"> 1. Demonstrates knowledge of human populations served and human development. 2. Demonstrates skill in formulating appropriate referral questions. 3. Demonstrates knowledge of and selects appropriate psychological assessment methods, based on psychometric properties and evidence base, across referral and practice areas (e.g., cognitive, personality, diagnostic, strengths). 4. Appropriately applies assessment methods (standardized measures and clinical interviewing), consistent with case formulation, and scores and interprets assessment data. 5. Demonstrates knowledge of and ability to conceptualize cases with consideration to intra-, inter-personal, and systemic contexts, along with strengths. 6. Demonstrates skill in effective written and verbal communication (e.g., results from assessment, diagnostic feedback). 	<p>Basic</p> <p>Basic</p> <p>Basic</p> <p>Basic</p> <p>Basic</p> <p>Basic</p>	<p>3-5, 7, 8</p> <p>7, 8</p> <p>1, 3, 5, 9</p> <p>5, 7, 9</p> <p>3, 7, 8</p> <p>7, 8</p>

<p>7. Demonstrates skill in developing recommendations and action plan based on assessment findings.</p>	<p>Basic</p>	<p>7, 8</p>
<p>Intervention and Consultation</p>		
<p>1. Demonstration knowledge of the relation between assessment and intervention.</p>	<p>Basic</p>	<p>7, 8</p>
<p>Research</p>		
<p>1. Engages in critical consumption and interpretation of the scientific literature and performs scientific review and critique (i.e., evaluate its significance, limitations, and contribution).</p>	<p>Basic</p>	<p>1-3, 5, 9</p>
<p>2. Demonstrates knowledge and skill in statistical and analytic approaches, and measurement theory, and their application to scientific inquiry.</p>	<p>Basic</p>	<p>5</p>
<p>3. Engages in effective communication (oral, written, visual) and dissemination of research (one's own research and broader literature) to diverse audiences.</p>	<p>Basic</p>	<p>7 - 10</p>
<p>Ethics and Standards</p>		
<p>1. Demonstrates knowledge of major ethical principles, issues, and dilemmas, and common professional issues relevant to the practice of psychology.</p>	<p>Basic</p>	<p>4</p>
<p>2. Demonstrates knowledge of standards and codes of professional conduct.</p>	<p>Basic</p>	<p>4</p>
<p>3. Proactively Identifies and conceptualizes potential and actual ethical issues and dilemmas, using key ethical codes (i.e., CPA, TCPS), relevant jurisprudence and legislation, and CPA ethical decision- making process in resolving professional and ethical issues.</p>	<p>Basic</p>	<p>1, 3, 4</p>
<p>Supervision</p>		
<p>1. Demonstrates knowledge of the multiple roles, responsibilities, and acquisition of competencies in supervision (i.e., of supervisor and supervisee).</p>	<p>Basic</p>	<p>3, 4, 10</p>
<p>2. Demonstrates knowledge of the ethical, legal, and contextual issues of supervision (including both supervisor and supervisee).</p>	<p>Basic</p>	<p>3, 4, 10</p>

Lecture Content:

Please review this schedule together with assignment descriptions and rubrics, and course assignment deadlines. We will meet weekly throughout the term during scheduled class times. You will be expected to practice and demonstrate test administration skills outside of scheduled class times, and participate in observation activities, in the clinic and with the TAs and Instructor. Please work with your TAs and Instructor to schedule required sessions and meetings in advance to ensure all course timelines and objectives are achieved. It is your responsibility to ensure adherence to the course schedule and assignments are submitted on time. We are also here to help support you in completing all course assignments and activities, so feel free to reach out anytime.

Week 1 (September 2nd – 8th):

Welcome, Course Outline, IT Set-up, Introduction to Problem-Based Learning (PBL)

Weekly Activities:

- Familiarize yourself with the course structure, timeline, and schedule of assessments, by reviewing the Course Outline and material posted to Courselink.
- Review: 'Steps in Problem-based learning: Solving scenarios' in the 'Assessments' area on Courselink.
- Setup and practice accessing Maplewoods network drives access with TA support.
- Test your technology and have computer encrypted
- Plan communication approaches for PBL collaborative learning as a group.
- Begin research for Problem #1 (Ethics and Test Security).

Class Activities:

- Attend Instructor-facilitated class meeting (**September 6th: 10:00am – 1:00pm**).
 - Welcome! Introductions and orientation to the course.
 - Discuss and co-develop norms for learning together.
 - Problem #1: Ethics: Review problem and plan for weekly activities.

Readings:

- Wiggins, S., Chiriack, E. H., Abbad, G. L., Pauli, R., & Worrell, M. (2016). Ask not only 'What can problem-based learning do for psychology?' but 'What can Psychology do for problem-based learning?' A review of the relevance of problem-based learning for psychology teaching and research. *Psychology Learning & Teaching*, 15(2) 136-154. <https://doi.org/10.1177/1475725716643270>

Week 2 (September 9th – 15th): Ethics and Professional Practice

Weekly Activities:

- Learn where to access WISC-V (physical kits and/or iPad administration kits) at Maplewoods (with support from TAs).
- Begin exploring the WISC-V *after* presenting the ethics problem in class, review manual for familiarity regarding test structure, administration procedures.
- Watch WISC-V administration video(s) (see TAs for support, access location).
- Begin research for problem #2 (History and Theory).

Class Activities:

- Attend Instructor-facilitated zoom meeting (**September 13th: 10:00am – 1:00pm**).
 - Check-ins, housekeeping, and debriefs.
 - Present PBL response to problem #1: Ethics.
 - Problem #2: History and theory: Review problem and plan for weekly activities.

A report of the Canadian Psychological Association and the Psychology Foundation of Canada. Ottawa: CPA. https://cpa.ca/docs/File/Task_Forces/TRC%20Task%20Force%20Report_FINAL.pdf

Assessments:

- Submit individual reflection characterizing contributions and learning for problem #1 (Ethics) in advance of class for Week 2. Submit your reflection to the Dropbox folder on CourseLink by 11:59pm on Thursday, September 12th.

Week 3 (September 16th – 22nd): **Practical Skills Week: Unpacking the WISC-V**

Weekly Activities:

- Familiarize yourself with the test manual and organizational structure of the WISC-V and arrive to the week prepared to ‘unbox’ the WISC-V and learn about both the traditional and iPad facilitated administration formats.
- Watch TA-prepared pre-recorded lecture (accessed via CourseLink via MS Teams).
- Watch the WISC-V demonstration video(s) with a focus on the core subtests to support familiarity and inform discussions.
- Begin practicing administration techniques and orientation to scoring.
- Continue research for Problem #2 (History and Theory).
- Prepare WISC-V description assignment for submission next week.

Class Activities:

- Attend Instructor-facilitated class meeting (**September 20th: 10:00am – 1:00pm**)
 - TAs will lead WISC practice and consultation activities during the usual class meeting time. TAs will be free to respond to questions, provide support learning the WISC-V primary subtests, provide coaching/supervision, and attend to common FAQs. Come ‘prepared’ to make best use of this time by having completed the ‘weekly activities’ (e.g., review TA instructional video, review WISC-V materials/manual, watch WISC-V demonstration/administration videos, etc.

Readings:

- Engi Raiford, S. (2018). The Wechsler Intelligence Scale for Children – Fifth Edition Integrated. In D. P. Flanagan & E. M. McDonough (Eds.) *Contemporary intellectual assessment: Theories, tests, and issues* (4th ed. pp. 302-332).
- Dombrowski, S. C. (2015). The psychoeducational assessment process. In S. C. Dombrowski (Ed.) *Psychoeducational assessment and report writing* (pp. 7-16). Springer. <https://doi.org/10.1007/978-1-4939-1911-6>

Week 4 (September 23rd – 29th): **History and Theory**

Weekly Activities:

- Practice to familiarity individually and in groups the WISC-V Primary subtests.
- Ensure familiarity with the process of scoring the Primary subtests, the factor structure, and deriving the total raw scores, scaled scores, index scores, percentile ranks, confidence intervals, qualitative descriptions, SEM, and primary analysis of index and subtest level strengths and weaknesses (workshop focus).
- Review readings for “Psychometrics” problem to ensure familiarity with relevant validity and reliability considerations.

- Begin research for Problem #3 (Psychometrics).

Class Activities:

- Attend Instructor-facilitated class meeting (**September 27th: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Present PBL response to problem #2: History and Theory.
 - Problem #3 (Psychometrics): Review problem and plan for weekly activities.

Readings:

- Wasserman, J. D. (2018). The origins of intellectual assessment: The unfinished tapestry. In D. P. Flanagan & E. M. McDonough (Eds.) *Contemporary intellectual assessment: Theories, tests, and issues* (4th ed. pp. 3-55).

- Graves Jr., S. L., & Aston, C. (2016). History of psychological assessment and intervention with minority populations. In S. L. Graves Jr., and J. J. Blake (Eds.). *Psychoeducational assessment and intervention for ethnic minority children: Evidence-based approaches* (pp. 9-21) American Psychological Association. <http://dx.doi.org/10.1037/14855-002>
- National Day of Truth and Reconciliation: Canadian Psychological Association (2018). Psychology's response to the Truth and Reconciliation Commission of Canada's Report. A report of the Canadian Psychological Association and the Psychology Foundation of Canada. Ottawa: CPA. https://cpa.ca/docs/File/Task_Forces/TRC%20Task%20Force%20Report_FINAL.pdf

Assessments:

- Submit individual reflection characterizing contributions and learning for Problem #2 (History and Theory) in advance of class for Week 4. Submit your reflection to the Dropbox folder on Courselink by 11:59pm on Thursday, September 26th

Week 5 (September 30th – October 6th):

Practical Skills Week: WISC-V Scoring

Weekly Activities:

- Practice to familiarity individually and in groups the WISC-V Primary subtests.
- Complete peer test administration assignment this week.
- Ensure familiarity with the process of scoring the Primary subtests, the factor structure, and deriving the total raw scores, scaled scores, index scores, percentile ranks, confidence intervals, qualitative descriptions, SEM, and primary analysis of index and subtest level strengths and weaknesses (workshop focus).
- Watch TA pre-recorded instructional video on WISC-V scoring.
- Review the more advanced scoring steps for Index scores, base rates, and contrasts
- Ensure familiarity with the WISC-V protocol to be scored and submitted.

- Continue research for Problem #3 (Psychometrics).
- Complete mock scoring protocol due this week.

Class Activities:

- Attend TA-facilitated class meeting (**October 4th: 10:00am – 1:00pm**)
 - TAs will lead practice and consultation activities during the usual class meeting time. TAs will lead consultation hours during the usual class meeting time. TAs will be free to respond to questions, provide support learning WISC-V scoring, provide coaching/supervision, and attend to common FAQs. Come 'prepared' to make best use of this time by having completed the 'weekly activities' related to scoring a WISC-V protocol.

Readings:

- None. Catch up week.

Assessments:

- Submit mock WISC-V description on or before 11:59 pm, October 3rd

Week 6 (October 7th – October 13th):

Psychometrics

Weekly Activities:

- Practice to accuracy, individually and in groups, the WISC-V Primary subtests.
- Begin research for problem #4 (Diversity).
- Begin preparing for test review presentations.

Class Activities:

- Attend Instructor-facilitated class meeting (**October 11th: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Present PBL response to problem #3: Psychometrics.
 - Problem #4: Diversity, Equity, Inclusion: Review problem and plan for weekly activities.

Readings:

- Suhr, J. (2015). "Knowing what's under the hood": Psychometric considerations. In J. Suhr (Ed.). *Psychological assessment: A problem-solving approach* (pp. 82-95). Guilford Press: New York.
- Montgomery, A., Torres, E., & Eiseman, J. (2018). Using the joint-standards to evaluate the validity evidence for intelligence tests. In D. P. Flanagan & E. M. McDonough (Eds.) *Contemporary intellectual assessment: Theories, tests, and issues* (4th ed. pp. 841-852).

- Canivez, G., Watkins, M., & Dombrowski, S. (2017). Structural validity of the Wechsler Intelligence Scale for Children—Fifth Edition: Confirmatory factor analyses with the 17 primary and secondary subtests. *Psychological Assessment, 29*, 458-472. <http://dx.doi.org/10.1037/pas0000358>

Assessments:

- Submit your peer test administration video and hand-scored WISC-V protocol for TA review by 11:59pm on Thursday October 10 (TAs will coordinate where to securely upload videos).
- Submit individual reflection characterizing contributions and learning for Problem #3 (Psychometrics) in advance of class. Submit your reflection to the Dropbox folder on Courselink by 11:59pm on Thursday, October 10

Week 7 (October 14th – October 20th): Practical Skills Week: Interpretation & Report Writing

Weekly Activities:

- Review mock interpretive case and profile for class.
- Prepare for practice TA WISC-V administration session this week.
- Continue research for problem #4 (Diversity).
- Watch TA-instructional lecture on report writing (accessible via Courselink and MS Stream).
- Review sample reports and approaches shared by TAs.
- Begin work on first draft of mock report due in a few weeks.
- Prepare for test review presentations.

Class Activities:

- Attend Instructor-facilitated class meeting (**October 18th: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Instructor will co-facilitate a workshop wherein we discuss approaches to interpreting the WISC-V and interpretation considerations more generally in the context of cognitive assessment.
 - Practice steps to interpretation with a mock case activity and WISC-V profile.

Readings:

- Sattler, J. M., Dumont, R., & Coalson, D. (2016). Interpreting the WISC-V. In J. M. Sattler, J. M., R. Dumont, & D. Coalson (Eds.). *Assessment of Children WISC-V and WPPSI-IV*. Sattler: La Mesa, California.

<https://doi.org/10.1007/978-1-4939-1911-6>

Assessments:

- Participate in your practice WISC-V administration with a TA this week.

Week 8 (October 21st – October 27th):

Diversity, Equity, Inclusion and Safe Practices in Psychological Assessment

Weekly Activities

- Practice to familiarity alternative administration format of WISC-V.
- Begin research for Problem #5 (Feedback).
- Continue work on first draft of assessment report due next week.
- Prepare for test review presentations due in class next week.

Class Activities:

- Attend Instructor-facilitated class meeting (**October 25th: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Present PBL response to Problem #4: Diversity.
 - Problem #5 (Feedback): Review problem and plan for weekly activities.

Readings:

- Graves, S. L., Jr., & Nichols, K. (2016). Intellectual assessment of ethnic minority children. In S. L. Graves & J. J. Blake (Eds.), *Applying psychology in the schools book series. https://cpa.ca/docs/File/Task_Forces/TRC%20Task%20Force%20Report_FINAL.pdf

Assessments:

- Submit individual reflection characterizing contributions and learning for problem #4 (Diversity) in advance of class for Week 8. Submit your reflection to the Dropbox folder on Courselink by 11:59pm on Thursday, October 24th

Week 9 (October 28th – November 3rd):

No Class, Catch Up Week!

Weekly Activities:

- Continue practicing WISC-V administration, scoring, and interpretation skills.
- Continue research for Problem #5 (Feedback).
- Complete first draft of assessment report due later this week.

Class Activities:

- No class this week.
 - Please use this week to work on your cognitive measures presentation and complete the first draft of your mock report.

Readings

- None this week

Assessments:

- Submit your first draft of the mock report to TAs by Sunday November 3rd @ 11:59pm.
 - TAs will aim to provide feedback within one week.

Week 10 (November 4th – November 10th):

Presentations

Weekly Activities:

- Practice to familiarity alternative administration format of WISC-V.
- Continue research for Problem #5 (Feedback).

Class Activities:

- Attend Instructor-facilitated class meeting (**November 8th: 10:00am – 1:00pm**)
 - This week presentations on assigned cognitive measures will take place during our regular class meeting time.

Assessments:

- Submit written summary and slides for Test Review Presentation via Dropbox folder on Courselink by 11:59pm on Thursday November 7th

Week 11 (November 11th – November 17th): Feedback

Weekly Activities:

- Prepare for Instructor WISC-V administration this week.
- Revise first draft of mock report based on TA feedback for resubmission next week.

Class Activities:

- Attend Instructor-facilitated class meeting (**November 15th: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Present PBL response to Problem #5: Feedback.

Readings:

- Suhr, J. (2015). Feedback and report writing. In J. Suhr (Ed.). *Psychological assessment: A problem-solving approach* (pp. 239-266). Guilford Press: New York.
- Wright, J. (2010). Providing feedback. In J. Wright (Ed.). *Conducting psychological assessment: A guide for practitioners*. New Jersey: Wiley.
- Smith, S., Wiggins, C., & Gorske, T. (2007). A survey of psychological assessment feedback practices. *Assessment, 14*, 310-319. DOI: 10.1177/1073191107302842

Assessments:

- Submit individual reflection characterizing contributions and learning for Problem #5 (Feedback) in advance of class for Week 11. Submit your reflection to the Dropbox folder on Courselink by 11:59pm on Thursday, November 14th
- Participate in mock WISC-V administration session with instructor this week

Week 12 (November 18th – November 24th): Course Wrap-up, Special Topics, and Evaluations

Weekly Activities:

- Finalize revisions to mock report and prepare to submit for the end of this week.
- Course evaluations are available to complete (time will be set aside for you to do so).
- Feel free to bring any remaining questions or topics of interest you may have, related to psychological assessment, to class this week!

Class Activities:

- Attend Instructor-facilitated class meeting (**November 22nd: 10:00am – 1:00pm**)
 - Check-ins, housekeeping, and debriefs.
 - Reflect on successes and opportunities for improvement on the course and the learning experience.

Assessments:

- Submit final version of report for instructor evaluation on or before 11:59 pm, Sunday November 24th

Readings:

- None. We did it! J

Class Format

Classes will be held in person during scheduled class meeting times, on campus. We will take breaks and develop a fun and engaging approach for learning together during this time. The class format has a primary focus on active learning. We will use a problem-based learning approach to cover most course topics, which involves the class working together as a group to understand and engage with complex, real-world scenarios that are relevant to the practice of cognitive assessment in children and adolescents. The group will collectively identify key issues raised within the problem, identify learning objectives, and develop a plan for self- or group-selected study to research information needed to “solve” issues raised (including assigned readings and additional information that may be contained in journals, books, practice standards, etc.). This is a learner-centered approach to integrating and organizing information in ways that will maximize recall and application to future, real-world clinical problems. During problem-based learning case review, students take the “lead” as learners who direct the process, and the instructor (i.e., me) takes the role of facilitator (think of me as a coach, rather than someone delivering the knowledge via lecture while the class passively receives the knowledge). From week-to-week the focus in class will vary, and will include active discussion, engagement in problems, and hands on learning with clinical test materials and demonstrations.

The background required to understand the lectures and to participate in the discussions is achieved through assigned readings as well as knowledge gained in earlier classes. Attendance and active participation is expected; there will be a variety of group-based activities completed during and outside class time. Please check Courselink regularly for course materials and updates.

My role and responsibilities: To engage your interest and develop your understanding of the history, theory, and practice issues relevant to cognitive assessment in children and adolescents. I will aim to develop interesting and complex cases that pique your interest, lead to the generation of stimulating discussions, and facilitate your work as a group to solve a variety of problems. I will facilitate your learning by assigning relevant readings, delivering brief lecture-based material (if appropriate), and focus on real-world decision making through practical application. I will encourage and foster an open class environment that facilitates lively discussion. I will be available to answer your questions in class, by email, and by appointment. I will provide fair evaluation and adhere to this course outline. In exceptional circumstances, changes may need to be made to the Course Outline. In such cases, I will announce the changes in class as soon as possible as well as on Courselink and by email.

Your Role and Responsibilities: Be an engaged learner. Come prepared for class, complete the readings and assigned activities, and think through problems and materials in advance. Speak up! Offer your opinion. Active discussion and learning from each other are very important for this class. I encourage healthy debate in our discussions with a focus on respectful engagement. Contribute meaningfully in your group work and support fellow group members in their efforts. Put thought and effort into your course work. Be on time for class.

TA Roles and responsibilities: To provide support, feedback, and mentorship in your developing understanding of psychological assessment with a practical focus on the accurate and reliable administration of the WISC-V, and the development of your clinical writing skills. Your TAs will provide you timely and constructive feedback to practical and written assignments and will be available to support your learning needs. They were in your seat not too long ago and form a valuable resource in your learning.

Course Assignments and Tests:

Assignment or Test	Due Date	Contribution to Final Mark (%)	Learning Outcomes Assessed
Class Participation (general group discussion, PBL contributions, reflections)	Throughout semester (includes effort in small group work)	30% total • 15%: Week of October 7 th • 15%: Week of November 18 th	1-5, 9, 11
Test Administrations: 1. Peer video & scored protocol 2. TA administration 3. Instructor administration	October 10 October 14 - 18 November 11 - 15	20% total* • 10% • 5% • 5% *(complete/incomplete)	1, 6
Mini Assignments 1. WISC-V description 2. Mock Observation write-up	October 3 Varies based on observation	10% total* • 5% • 5% *(complete/incomplete)	1, 5, 7, 8
Test Review & Presentation	November 8	15%	1-4, 10-11

Assignment or Test	Due Date	Contribution to Final Mark (%)	Learning Outcomes Assessed
Mock Report 1. Draft to TA 2. Final Submission	November 3 November 24	25% Total • 15% • 10%	1, 3, 5, 7, 11

Final examination date and time: There is no final exam in this course.

Course Resources

Recommended Texts:

Flanagan, D. P. & McDonough. (Eds.). (2018). *Contemporary Intellectual Assessment: Theories, Tests, and Issues*. New York, NY: Guilford Press.

Dombrowski, S. C. (Ed.). (2015). *Psychoeducational Assessment and Report Writing*. Springer: New York. <https://doi.org/10.1007/978-1-4939-1911-6>

Other Resources:

Additional resources will be posted to Courselink in the 'Content' section of the course on an as needed basis. The course will operate and be organized based in Courselink and you are encouraged to familiarize yourself with features of this learning management system early in the course.

Course Policies

Grading Policies

All assignments must be completed on time by the assigned deadline. That said, sometimes unexpected things pop up. Everyone will be allowed a one-time '48-hour extension for no reason and any reason' during the course. Simply send me an email indicating that you would like to use your extension. Otherwise, a 10% per day deduction will be applied for late submissions. I also understand that you may experience unanticipated difficulties for a variety of reasons. If this happens, please reach out to me early and share as you feel comfortable. I do not need you to divulge personal health or other concerns unless doing so would be helpful for you. In this case, I will be happy to try and help. Otherwise, it is sufficient to indicate that you are experiencing difficulties that require consideration, therefore allowing us to collaboratively problem-solve and support your success in the course.

[Graduate Grade interpretation](#)

Please note that these policies are binding unless academic consideration is given to an individual student.

Course Policy on Group Work:

Group work forms an important component of this course. You will work together, cooperatively, on a number of problem-solving scenarios, and practicing your clinical test administration skills. It is important to support each other in learning new material, and to maintain a high degree of professionalism. Psychologists often work as members of interdisciplinary teams and as leaders in managing complex projects. Group work provides important learning opportunities to enhance and receive feedback on these skills. In the event that conflict arises, please engage in efforts to proactively identify, discuss, and resolve any difficulties. If challenges persist, please approach one of the TAs or the Course Instructor for support in diffusing and resolving any conflicts.

Course Policy regarding use of electronic devices and recording of lectures:

Electronic recording of classes is expressly forbidden without consent of the instructor. When recordings are permitted, they are solely for the use of the authorized student and may not be reproduced, or transmitted to others, without the express written consent of the instructor.

Integrity and Security of Test Materials

Your instructor and TAs will provide you with information regarding procedures for obtaining access to psychological assessment materials. Responsible professional conduct requires that you exercise careful control over the integrity and security of test materials. Please familiarize yourselves with the readings for Week 2/Ethics problem. Recognize that you are learning about psychological assessment, including tools and test materials, under the supervision of your Instructor, a Member of the College of Psychologists of Ontario. Psychologists must at all times endeavour to maintain the integrity of psychological tests, and may not supply test materials, forms, or manuals to unqualified users. Psychologists must protect the security of tests and respect test copyright. Test material, such as test questions and stimuli, manuals, and protocols should not be released, except as required by law. Access to test protocols and materials should be restricted to licensed psychologists and those under direct supervision.

University Policies

Disclaimer:

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings, changes in classroom protocols, and academic schedules. Any such changes will be announced via CourseLink and/or class email. This includes on-campus scheduling during the semester, mid-terms and final examination schedules. All University-wide decisions will be posted on the COVID-19 website (<https://news.uoguelph.ca/2019-novel-coronavirus-information/>) and circulated by email.

Academic Consideration

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor in writing, with your name, id#, and e-mail contact. See the academic calendar for information on regulations and procedures for

Academic Consideration:

[Grounds for Academic Consideration](#)

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community, faculty, staff, and students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the [Graduate Calendar](#):

Illness

Medical notes will not normally be required for singular instances of academic consideration, although students may be required to provide supporting documentation for multiple missed assessments or when involving a large part of a course (e.g., final exam or major assignment).

Accessibility

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact [Student Accessibility Services](#) as soon as possible.

For more information, contact SAS at 519-824-4120 ext. 54335 or email accessibility@uoguelph.ca or the [Student Accessibility Services Website](#)

Student Feedback Questionnaire

These questionnaires (formerly course evaluations) will be available to students during the last 2 weeks of the semester. Students will receive an email directly from the Student Feedback Administration system which will include a direct link to the questionnaire for this course. During this time, when a student goes to login to CourseLink, a reminder will pop-up when a task is available to complete.

[Student Feedback Questionnaire](#)

Drop date

The last date to drop one-semester courses, without academic penalty, is Friday November 29, 2024. For regulations and procedures for Dropping Courses, see the [Schedule of Dates in the Academic Calendar](#).

Instructors must provide [meaningful and constructive feedback, at minimum 20% of the final course grade, prior to the 40th class day](#). For courses which are of shorter duration, 20% of the final grade must be provided two-thirds of the way through the course.

[Current Graduate Calendar](#)

Additional Course Information

Course instructors are allowed to use software to help in detecting plagiarism or unauthorized copying of student assignments. Plagiarism is one of the most common types of academic misconduct on our campus. Plagiarism involves students using the work, ideas and/or the exact wording of other people or sources without giving proper credit to others for the work, ideas and/or words in their papers. Students can unintentionally commit misconduct because they do not know how to reference outside sources properly or because they don't check their work carefully enough before handing it in. Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

In this course, your instructor will be using Turnitin.com to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to prevent plagiarism in the College of Social and Applied Human Sciences.

A major benefit of using Turnitin is that students will be able to educate and empower themselves in preventing misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.
